

EACT

Monthly Report on Regulatory Issues

Date issued: 20 April 2015

This report has been designed for, and with the support of, the above National Treasury Associations. Its purpose is to provide information about European financial regulation impacting corporate treasurers.

Despite all efforts, some information in this report could contain errors or be subject to interpretation. The EACT or National Treasury Associations should not be held liable.

Any comment or opinion in this report is that of the EACT alone and should not be taken as representing the views of either individual National Treasury Associations or of any of the individual companies with which the EACT discusses regulatory affairs.

Executive Summary

Topic and summary of content and EACT position	Latest developments
<p><u>European Market Infrastructure Regulation (EMIR):</u></p> <ul style="list-style-type: none"> • Regulation to push derivatives trading on exchanges • Corporates' hedging transactions exempted from clearing obligation but subject to reporting, portfolio reconciliation, portfolio compression and dispute resolution obligations 	<ul style="list-style-type: none"> • ESMA published the 12th EMIR Q&A document • ESMA has launched, at the request of several national competent authorities, centralised data projects for EMIR and MiFID. For EMIR, the aim is to create a single access point for trade repository data to ESMA and national supervisors. ESMA expects this to be implemented in 2016. • The EACT is looking into the details of the EBA report on CVA with the aim of drafting a public statement
<p><u>Money Market Funds (MMF) Regulation:</u></p> <ul style="list-style-type: none"> • European Commission proposal to regulate MMFs includes e.g. a mandatory capital buffer for CNAV funds, ban on external credit ratings and limitations to instruments in which MMFs can invest in • The proposal was adopted by the Commission in September 2013. The Parliament has now agreed on its position (which relaxes some of the requirements in the original Commission proposal) but the Council still needs to agree on its position. • EACT position concentrates on the importance of ensuring the availability MMFs (both CNAV and VNAV) and arguing against the ban of credit ratings 	<ul style="list-style-type: none"> • The Plenary vote on ECON report is due at the end of April
<p><u>Financial Transaction Tax (FTT) :</u></p> <ul style="list-style-type: none"> • A proposal to tax a large variety of equity and bond transactions in 11 EU Member States under the 'enhanced cooperation' approach 	<ul style="list-style-type: none"> • It seems that despite a previous consensus around a low-rate and large instrument base tax, the Member States are still not in agreement on

<ul style="list-style-type: none"> • The proposal has been subject to widespread criticism (including its legality) and it is expected that should an FTT be implemented at any stage, it would be much more restricted in scope than originally proposed • EACT strongly opposed as FTT amounts to a tax on the real economy 	<p>the basic principles on which the FTT would be based.</p> <ul style="list-style-type: none"> • Finance Ministers hope to discuss options for a possible agreement this spring. The FTT Ministers' discussion has been postponed to May from the previously scheduled informal ECOFIN in Riga on 24/25 April.
<p><u>Financial Benchmark Regulation:</u></p> <ul style="list-style-type: none"> • Proposal of the Commission to regulate the administration and the contribution to financial benchmarks • Would impose mandatory contributions to certain benchmarks (EURIBOR and LIBOR) and would impose liability for those contributions in certain cases • EACT position will underline the importance of contract continuity and coherence of EU action with international developments 	<ul style="list-style-type: none"> • ECON has agreed on its position which now needs to be validated by the Parliament Plenary before the trilogies can start. Bank of England has started work in order to come up with a "near risk free reference rate" alternative to LIBOR.
<p><u>Bank Structural Separation (Barnier / Liikanen rule)</u></p> <ul style="list-style-type: none"> • Proposal of the Commission to ban proprietary trading and to have the possibility of separating banks' other trading activities into a separate entity; separation would not be automatically forced but bank supervisors would have to decide case by case. The planned Regulation would only apply to the biggest banks. 	<ul style="list-style-type: none"> • Work is ongoing both in the Council and the ECON Committee but both institutions are still quite far from reaching an agreement. • The EACT has sent a letter to several ECON members on the impact on real economy of separating certain banking services, especially OTC derivatives.

Note: For ease of reading, updates compared to the previous report are in bold font.

OTC Derivatives - European Market Infrastructure Regulation (EMIR)

Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>EMIR was adopted on 4 July 2012 and entered into force on 16 August 2012. It requires the central clearing of all standardised OTC derivatives contracts, margins for non-centrally cleared contracts and the reporting of all derivatives contracts to trade repositories.</p> <p>EMIR contains different start dates for the various obligations and the obligations for NFC- (portfolio compression, trade reporting) are already in place. On 18 March 2014 ESMA authorised the first CCP for the clearing obligation, which kick-starts the countdown to the start of the clearing obligation. ESMA has six months, until 18 September 2014, to submit the RTSs on the clearing obligation for Commission approval.</p> <p>FSB has consulted on the approaches to aggregate OTC derivatives data and will report to the G20 Brisbane summit in the autumn on the conclusions. EACT response to the consultation is available here.</p>	<p>ESMA/ EBA:</p> <ul style="list-style-type: none"> • ESMA published the 12th EMIR Q&A document • ESMA has launched, at the request of several national competent authorities, centralised data projects for EMIR and MiFID. For EMIR, the aim is to create a single access point for trade repository data to ESMA and national supervisors. ESMA expects this to be implemented in 2016. • EBA published its advice to the Commission on CVA risks. The EBA states that while it currently has no legal mandate to propose the deletion of the CVA exemptions included in CRD IV, it considers that the exemptions leave material risks uncovered and therefore overall the exemptions should be removed or reconsidered in the future, as part of the Basel Committee review of the CVA framework. In the meanwhile the EBA will draft guidance for national supervisors to monitor excessive CVA risks and to address them. A consultation on this topic is expected later this year. • ESMA has published a revised opinion on its draft RTSs for the clearing obligation on interest rate swaps. ESMA is expecting central clearing to start at the end of this year (with a phase-in period for 	

OTC Derivatives - European Market Infrastructure Regulation (EMIR)

	<p>NFC+s).</p> <p><u>International:</u></p> <ul style="list-style-type: none"> • The Basel Committee and IOSCO issued a revised timeline for the implementation of margin requirements for non-centrally cleared derivatives <p>IOSCO has published its final report on risk mitigation standards for non-centrally cleared OTC derivatives which will apply to financial entities and systemically important non-financial entities</p>

<u>Shadow banking / Money Market Funds (MMFs)</u>		
Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>The Commission proposal for Regulation would impose amongst others the following:</p> <ul style="list-style-type: none"> • A requirement on CNAV MMFs to have a cash “buffer” equivalent to 3 percent of their assets • binding rules on the types of assets MMFs can invest in • limits on how much business MMFs can do with a single counterparty, and restrictions on short selling • A ban for MMFs to solicit external ratings <p>The Parliament ECON Committee did not reach a compromise on the text. The work will therefore continue in the autumn under the new Parliament. The new ECON committee is not likely to re-start the work on the file before September-October at the earliest. A new Rapporteur will have to be appointed as the previous Rapporteur (Said El Khadraoui) was not re-elected.</p>	<ul style="list-style-type: none"> • On 26 February the ECON Committee agreed on its position. The main elements of the compromise are as follows: <ul style="list-style-type: none"> ○ CNAV funds would be allowed in two cases only: those with retail investors only (not open for subscription by corporates) and those which invest in EU government debt ○ In addition to this a new category of funds will be created called Low Volatility NAV funds which would also be allowed to show a stable share price. These funds would be allowed to use amortised cost accounting only for assets of maturity up to 90 days. ○ For both CNAV funds and LVNAV funds there will be redemption gates and fees. ○ External credit ratings would be allowed, contrarily to what was 	<ul style="list-style-type: none"> • Impact on future availability of CNAV funds; also uncertainty on whether VNAV funds can be accounted for as cash or cash equivalent • Consequences of ban on external ratings of MMFs • Inconsistency with US approach

Shadow banking / Money Market Funds (MMFs)

	<p>originally proposed by the Commission</p> <ul style="list-style-type: none"> • The agreement still needs to be approved by the Parliament Plenary; the vote is scheduled for end of April. • The Council has not made any progress on the file recently and now has to start the discussions again 	
<p>Key documents:</p> <ul style="list-style-type: none"> • Commission proposal for regulating MMFs • IOSCO Policy Recommendations for MMFs • ECON report tabled for Plenary 		

Financial Transaction Tax (FTT)		
Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>Council agreed to the “enhanced cooperation” procedure between 11 Member States (Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia) at the end of January.</p> <p>The Commission issued a proposal for a Directive on 14 February 2013 (see also the press release and the Questions & Answers).</p> <p>The new proposal is based on the previous text presented in 2011 with some amendments and to have the following main aspects:</p> <ul style="list-style-type: none"> • The scope of instruments covered is very broad including shares and bonds at 0.1% and derivatives at 0.01%. CFDs, equity derivatives, depository receipts, money market instruments, structured products are also covered. The applicable rates are minimum harmonized rate levels paving the way for individual countries to possibly adopt higher levels. Furthermore, cascade effects could make the effective rate higher as the transactions would be taxed separately from different market participants at different stages. • The FTT would cover the purchase and sale of the financial instrument before netting and settlement and it would be applied on the basis of a 	<ul style="list-style-type: none"> • It seems that the participating MSs are still considering two main options for the tax: i) a low rate and broad base of taxable financial instruments ii) higher rates and more reduced base of taxable financial instruments (possibly only equities and equity derivatives). Many MSs have reservations about the former as the cost of implementation and tax collection is expected to higher than the tax revenues, especially in smaller MSs. • Furthermore, the basic principle of issuance / residence principle or a mix still remain very much open. • The most active MSs are France, Austria and Italy. German position seems somewhat mixed and some small MSs, especially Belgium, Slovakia and Portugal are reported to be quite sceptical. • Generally the discussions on alternatives for FTT have started as the discussions on FTT have been dragging on for so long. Also there seems to be a recognition of the impact of any agreement on FTT would have on the discussions on Brexit. 	

Financial Transaction Tax (FTT)		
Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>combination of the residence principle and the location of the where the financial instrument is issued.</p> <ul style="list-style-type: none"> • The proposal also provides for implementing acts regarding uniform collection methods of the FTT and the participating countries would have to adopt appropriate measures to prevent tax evasion, avoidance and abuse. • There will be an exemption for primary market transactions (i.e. subscription/issuance). <p>The extra-territorial impact of the FTT could be very wide due to the design of the tax: an FTT Zone financial institution's branches worldwide will be subject to the FTT on all of their transactions and non-FTT Zone financial institutions will be taxed for transactions with parties in the FTT Zone, and whenever they deal in securities issued by an FTT zone entity.</p> <p>Key documents:</p> <ul style="list-style-type: none"> • Commission proposal • Commission Impact Assessment; Summary of Impact Assessment • EACT position paper 		

Financial benchmarks		
Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>The are two work streams:</p> <ol style="list-style-type: none"> 1. The proposal of the European Commission for Regulation on financial benchmarks which seeks to address concerns about the integrity and accuracy of financial benchmarks and which contains e.g. the following aspects: <ul style="list-style-type: none"> • Benchmark administrators will be subject to authorisation and supervision (prohibition of the use of unauthorised benchmarks within the EU) • Mandatory contributions to “critical” benchmarks (such as LIBOR and EURIBOR) • Equivalence requirement for non-EU benchmarks (third countries must have a legal framework in place which is in line with the IOSCO principles) • Mandatory code of conduct for administrators and contributors 2. FSB work carried out in the Market Participants Group, which has been tasked to propose options for robust reference interest rates that could serve as potential alternatives to the most widely-used, existing benchmark rates and propose strategies for any transition to new 	<p>The ECON Committee has agreed on its position on the Commission’s proposal for regulating financial benchmarks. On the topic of third country regime, the ECON Committee voted to amend the original Commission proposal so that benchmarks administered by non-EU entities can more easily be used in the EU; under the ECON position non-EU administrators could seek for recognition (instead of an equivalence decision by the Commission) either by demonstrating that they either comply with the IOSCO principles for financial benchmarks or with the EU rules.</p> <p>Regarding the development of LIBOR, the Bank of England has reportedly aiming at introducing an alternative to LIBOR next year; this follows on the FSB work last year which recommended the creation of “near risk free reference rates”.</p>	<p>Main issues for corporates are:</p> <ul style="list-style-type: none"> • Ensuring contract continuity • The EU Regulation proposal includes the prohibition to use non-EU benchmarks if an equivalence decision by the Commission is not taken (i.e. of the third country is not in line with the IOSCO principles); this could be problematic if no grandfathering clauses are introduced

<u>Financial benchmarks</u>

Regulation on structural measures improving the resilience of EU credit institutions (structural separation of banks)		
Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>The Commission has adopted a proposal for Regulation, which contains the following main aspects:</p> <ul style="list-style-type: none"> • Banning of proprietary trading • Potential separation of certain trading activities (market making, OTC derivatives trading, complex securitized products etc.) The banking supervisor would monitor banks' activities and could require a separation of these activities into a separate entity. <p>The Regulation would apply only to the biggest banks, i.e. those deemed to be of global systemic importance or those exceeding 30 billion euros in total assets and trading activities either exceeding 70 billion euros or 10% of the bank's total assets.</p> <p>The Commission adopted its proposal on 29 January which will be subject to the ordinary legislative procedure. According to the proposal the proprietary trading ban would apply as of 1 January 2017 and the separation of other trading activities as of 1 July 2018.</p>	<p>The Latvian Presidency has drafted a compromise proposal on which the Member States are currently working on. The compromise proposes amongst other things to put mandatory separation on proprietary trading instead of an outright ban. Furthermore, the text proposes to delete the provisions dealing with the ban on core credit institutions to offer non-cleared OTC derivatives.</p> <p>The ECON is still in the process of negotiating a deal on the text within the Committee; the vote in Committee is scheduled for 28 May but this could still be postponed as discussions between the different political groups have been rather difficult.</p>	<ul style="list-style-type: none"> • Impact on market-making • Impact on the availability of OTC derivatives as core (retail) institutions would not be able to offer OTC derivatives to their non-financial customers • Impact on pricing

Regulation on structural measures improving the resilience of EU credit institutions (structural separation of banks)

Regulation on reporting and transparency of securities financing transactions

Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>Together with the proposal on structural separation of banks (see above) the Commission has adopted a proposal for increasing transparency of securities financing transactions. This includes a variety of secured transactions such as lending or borrowing securities and commodities, repurchase or reverse repurchase transactions and buy-sell back or sell-buy back transactions.</p> <p>The proposal includes the following elements:</p> <ul style="list-style-type: none"> • All transactions should be reported to a central database (similarly to EMIR with the details to be defined by ESMA). This obligation would apply to both financial and non-financial counterparties. • Transparency requirements for investment funds engaged in such transactions • Increased transparency on rehypothecation (use of collateral by the collateral-taker for their own purposes) <p>The Commission adopted its proposal on 29 January; the proposal will be subject to the ordinary legislative procedure. According to the proposal the reporting obligation would start 18 months after the entry into force of the Regulation.</p>	<p>The Council has reached a General Agreement on the text. From NFC point of view, the Council text exempts small and medium sized non-financial companies from the reporting obligation.</p> <p>The ECON Committee has agreed on their report, which still needs to be approved by the Parliament Plenary. The ECON position would also exempt small and medium-sized companies from the reporting obligation.</p>	<p>Reporting of repo trades by non-financial counterparties (however the proposal states that this can be delegated); it needs to be assessed how important an issue this would be for corporates.</p>
<p>Key documents:</p> <ul style="list-style-type: none"> • Text of the proposal 		

Capital Markets Union		
Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>The Capital Markets Union (CMU) is a plan of the European Commission that aims to create deeper and more integrated capital markets in the 28 Member States of the EU.</p> <p>With the CMU, the Commission will explore ways of reducing fragmentation in financial markets, diversifying financing sources, strengthening cross border capital flows and improving access to finance for businesses, particularly SMEs.</p> <p>The CMU is a multi-year project and is likely to include a variety of legislative and non-legislative measures. The short-term actions include work on securitisation, Prospectus Directive and private placements. The longer term work includes actions on company, insolvency, securities and tax laws.</p>	<p>The Commission published the consultation on the Green Paper which will run until 13 May</p>	
<p>Key documents:</p> <ul style="list-style-type: none"> • Commission CMU website (all relevant documents are available here) 		

Credit Rating Agencies		
Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>ESMA consulted on competition, choice and conflicts of interests in the credit rating industry. This consultation starts the formal review of the CRA Regulation currently in place and ESMA is expected to draft a report to the Commission in the autumn with its recommendations. The Commission could then propose a legislative review in 2016.</p> <p>Key documents:</p> <ul style="list-style-type: none"> • ESMA consultation page 	<p>ESMA consultation closed on 31 March.</p>	<p>The consultation paper raises many of the issues the EACT has previously sought to tackle e.g. mandatory rotation</p>

Payments Package		
Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>Revision of the Payment Services Directive (PSD): The main changes introduced by the Commission proposal are the following:</p> <ul style="list-style-type: none"> • Banning of surcharging on payment cards covered by the MIF Regulation • Inclusion of third-party payment service providers in the scope • Extension of the scope of the PSD e.g. where at least the payer's PSP is acting from within the EEA / extension to all currencies <p>Regulation on card interchange fees: The Regulation will impose mandatory caps for card interchange fees: for debit card payments, the cap will be 0.2% for crossborder transactions and 0.2% of weighted average for national payments; for credit cards the cap will be 0.3% of the transaction value.</p>	<p><u>On PSD</u>, a new recital 13c has been added in the latest Presidency compromise proposal which includes the point raised by the EACT concerning the exemption for corporate in-house banks and shared service centres. The Recital clarifies that the exemption under Article 3(n) applies to : i) payment transactions in favour of third parties initiated by a parent undertaking on behalf of its subsidiaries or by a subsidiary on behalf of the parent undertaking or on behalf of other subsidiaries of the same parent undertaking, provided such payment transactions ("payments on behalf") are executed by a PSP; ii) payment initiation services and account information services provided by a parent undertaking on behalf of its subsidiaries or by a subsidiary on behalf of the parent undertaking or on behalf of other subsidiaries of the same parent undertaking.</p> <p>The trilogue negotiations started beginning</p>	<p>Draft EACT position paper on PSD concentrates on the following issues:</p> <ul style="list-style-type: none"> • Need for a clear exemption for intra-group transactions in order to maintain corporate in-house banks outside the scope of the PSD • Arguing against the proposed changes to the unconditional right to refund for direct debits

<u>Payments Package</u>		
	<p>of February.</p> <p><u>On the card MIF Regulation</u>, the trilogues reached an agreement in December last year and the agreed caps on interchange fees will be effective six months after the Regulation has entered into force.</p> <p>The Parliament has now formally adopted the text, which still needs to be formally adopted by the Council (expected to be done by the summer).</p>	
<p><u>Key documents:</u></p> <ul style="list-style-type: none"> • Commission Proposal for a revised Payment Services Directive (PSD2) • MIF Regulation text adopted by the Parliament • Impact Assessment: Executive Summary ; Full text • EACT Position Paper 		

Transatlantic Trade and Investment Partnership (TTIP)		
Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>Trade agreement currently being negotiated between the EU and the US. The aim is to remove trade barriers (tariffs, unnecessary regulations, restrictions on investment etc.) in a wide range of economic sectors. Financial services have been included in the negotiations, however the main counterparties in the US (Treasury, Fed, CFTC) whereas the EU is in favour of covering financial services in the agreement. It is not clearly defined as yet what the negotiations regarding financial services will cover, but issues such as making substituted compliance / equivalence work better, formalisation of the existing dialogue and market access could be on the table.</p>	<p>The EU and the US negotiators remain divided on the inclusion of financial services in TTIP – the EU wishing to extend the discussions to regulatory convergence and the US side prepared to discuss only issues concerning market access. Recently the EU negotiator stated that the EU would possibly propose a “negative list” approach where newly developed products and services get a low tariff treatment.</p>	<ul style="list-style-type: none"> • Preserving existing exemptions (CVA in CRD IV) • Ensuring regulatory convergence
<p>Key documents:</p> <ul style="list-style-type: none"> • Commission TTIP website • Commission negotiating position on financial services 		

SEPA		
Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
<p>The Commission proposed a period of six months (until 1 August 2014) during which non-SEPA formats would still be allowed. The Regulation will have retroactive effect as from 31 January 2014. However, national authorities' approaches to this extension seem to have some differences. Regarding SEPA governance, the ECB has established the European Retail Payments Board (ERPB) which replaces the former SEPA Council.</p>	<ul style="list-style-type: none"> The ERPB working group on SEPA post-migration issues published its final report. 	
<p>Key documents:</p> <ul style="list-style-type: none"> SEPA Regulation Regulation 248/2014 amending the SEPA migration deadline ECB website on national SEPA migration plans 		

Markets in Financial Instruments (MiFID / MiFIR 2)		
Content and legislative status	Latest developments	Issues from treasury perspective / EACT position
